# Start Your Term with a

**WOWKIDS** is a 2½ hour workshop that proves to students that we are all born geniuses and that learning is fun. We ignite their enthusiasm for learning by making learning FUN. We empower students to use their imaginations and prove through a series of techniques – learning and recalling vast amounts of information is possible and easy. This style of education makes a huge difference to the student's self-belief and motivation to learn.

It draws out the genius from within and appeals to all styles of learning, thus engaging students from the start right through to the conclusion of the program. Teachers are encouraged to join in so that they can continue the techniques. Students feel more positive about their ability to learn effectively and understand that we all learn in different ways.

Accelerated Learning is a holistic approach to learning that, when applied in conjunction with the school syllabus and home learning, gives kids an amazing head start. This WOW KIDS program will benefit all types of learners and boost levels of self-belief and enthusiasm.

“Attending a WOW KIDS class is the best gift you could ever give to your children. WOW KIDS helps kids develop a love of learning along with effective learning and memory strategies that will help them be more effective in all areas of their life. Highly recommended.”

JEREMY CARTER – CEO – RAPPORT LEADERSHIP INTERNATIONAL

WOWKIDS WAS FORMERLY KNOWN AS \*FUNDAMENTAL STUDENT BECAUSE THE \*FUN COMES BEFORE DAMENTAL

# Here's how we add value:

This is fast paced high energy workshop is delivered to year 2-6s and their teachers too. We improve their memory skills, increase self-confidence, and they learn how to learn effectively. In a 2½- hour, highly interactive multi-sensory dynamic workshop, we teach **WOW SKILLS** – a wholistic approach to learning that by making learning fun –

STUDENTS WANT TO LEARN.

## DESCRIPTION

It's a fast paced and fun program that builds confidence, ensures each genius believes in themselves and that everything is possible. Run in your school hall to groups of 200 students at a time. It's an outrageously fun, fast paced 2½-hour workshop for years 4-6 that is packed with accelerated learning techniques.

We run a shorter version for the year 2-3 geniuses. It is **WOW** in every sense so get ready as these geniuses will prove to themselves just how much fun it is learn.

## BENEFITS

The whole school benefits from this program as we accommodate all ages and is completed with a **WOW TEACHER** hour long session after school.

It will boost everyone's confidence and understanding of how our brains work and how we all learn differently. Students leave enthusiastic about learning and eager to practice their new tools.

Students learn to be creative about learning which benefits all types of learners.

## WOW SKILLS

During the workshop, students will:

- >> Learn how to remember lots of information – easily.
- >> The **WOW SKILLS** they learn will serve them all through life and as part of their homework.
- >> These **WOW SKILLS** will prove to each student just how brilliant they are at learning when they are having fun and being creative using their whole brain.

## GOALS

We prove to all our students that they are all brilliant and can make a difference to their lives by using our tools and applying our teachings.

Teachers see their students in a whole new light and see these **WOW SKILLS** work.

Parents are witness to their child's genius and can continue the techniques at home.

“Watching the children change (especially Year 6) from reluctance to full participation was a complete surprise. So inspiring, brainstorming was Brilliant, Lively presentation that kept the children focused for a long time (WOW!). All the students learnt more than expected.”

FIONA LOTHIA – JANET DUKE JUNIOR SCHOOL – ESSEX, UK
